FOR STATE SENATORS. 15th Dist.—SHELDEN OSBORNE, of Harwinton JOSHUA BIRD, of Bethlem. SAMUEL W. GOLD, of Cornwall.

ELECTION NEXT MONDAY. Our State Election takes place on Monday. The Republican candidates for State Officers, State Senators, and Representate in Congress, are all eminently worthy of the cordial support of the People, and Litchfield county is expected to do her full share in accomplishing the victory that awaits us. The success of our State Ticket, and a Republican Legislature, are conceded by our opponents. All their efforts are to secure one or two members of Congress. To this end, Ezra Clark of the First District, Austin Baldwin of the Second, and Messrs. Perkins and Coe of the Third, have been induced to enter the field directly or indirectly in aid of the Administration candidates. It is scarcely possible however that there are men enough who can be induced to follow the treacherous lead of such men as to render doubtful the election of the Republican caudidates in either of those Districts.

In the Fourth District, we cannot see any danger if the people come the polls. Last spring the Republican majority in the two counties was 728, as shown by the vote for State Senators, and 609 on Governor. In a full vote there ought to be a thousand majority this spring for Mr. Ferry.

Mr. Ferry has addressed the electors in every town in Litchfield county during the last three weeks. The impression he has made has every where been favorable. Even his opponents confess to his ability, and the candor with which he has epoken of the political topics of the day.

Hon. Horatio Seymour of Utica is to speak at the Court House this (Thursday) evening for the benefit of the Democracy. He belongs to the "Sey mour family," though not a native of Litchfield, as the handbills say. The Ex-Governor is an eloquent speaker, and has a good faculty of making "the worse appear the better reason.'

Mr Woodman of Boston, who is to speak at the Court House on Saturday Evening, is one of the best speakers in New England, and will, we doubt not, have a full house. He has been speaking in the Bartford district.

Except in the cities of New York and Penn sylvania, no Lecompton member of the last Con gress has yet been returned from the Northern States. Next Monday will decide whother Connecticut will be the first Free State to endorse a Slavery-extending Administration.

A small clique of gentlemen at Waterbury. who are too pure to unite with either of the political parties of the day, have held a meeting and nominated a ticket for State Officers and Member of Congress fortthe 2d District, composed of the following rames: Dennis Kimberly for Gove rnor; Ebenezer Jackson for Lient. Governor: F. D. Whittlesey for Secretary of State , Francis E. Harrison for Controller : and Austin Baldwin for Congress .- a very respectable ticket certainly. The simple object of the move is to defeat John Woodruff for Congress. No that he has a full house, mar in the State would be more cordially supported for Governor, if really a candidate, than Gen. Kimberly, who is one of the very noblest men in the Commonwealth; but it is very well known that he would not accept the office if proffered to him by the ananimous voice of all parties. He might have been Governor years ago, or have occupied a seat in the U. S. Senate for the last twenty years, if he had onby consented to the use of his name by his old polit-

We now fixed determination towards the right, from which and his qualifications, and we will try to give him to his retirement, not only an unsullied reputation, as great a vote this year. Yes: there were 86,298 but also a volume of love and respect which few men in Connecticut, that, in 1858, stood up man- men who have followed the whirl of business for so fully in the cause of Freedom and Free Labor.-These men will not falter in 1859. They are as ready now as then to declare their aderence to the cause of right and justice. Others, too, will join them, to roll up a large majority for Wn. A. Buck-ENGHAM as Governor .- Courant.

18 There is an absurd rumor in circulation, to the effect that S. D. Northway, of Norfolk, is out in favor of Bishop. The fact is that Mr. Northway is doing all he can for Ferry, and will continue to devote his energies from now till April 4th, to the Republican cause, and will no doubt have the pleasure of witnessing the defeat of Mr. Bishop-Norfolk giving its accustomed majority on the right side.

VOTE FOR FERRY !- The election of a Member of Congress is of more importance than the entire State ticket. Thus far 112 Republicans have been chosen to the next House of Representatives, and it equires seven more to make a clean majority. Rhode Island will doubtless send two, and Mineso two; so that it requires three Republicans from Connecticut to secure a certain majority over all the pro-slavery factions. The good of the cause requires that any prejudices which may have existed in the minds of any of the electors in the district against Mr. Ferry for past differences of opinion should be forgotten in our desire to promote the public good. His vote will be right every time on questions affecting the interests of Free Labor, American Industry, and Economy in the Administration of the Government. Let every man who wants a true and faith ful Representative in Congress, vote for Ferry.

Hon. S. W. Gold has accepted the nomination of the Republicans for Senator from the 17th District. The following is his card of acceptance : To the Republican Electors of the 17th Senatorial District. The nomination so unanimously conferred upon me by your Senatorial Convention which assembled yesterday, and which has been duly announced to me, is gratefully accepted.

I appreciate the honor and now tender you my thanks. Should your nomination be successfully to the trust, and neither dishonor you by want of fidelity to the great interests of the Republican party or the station which I may occupy, by sacrificing

the public good to mere party policy.

Your political sentiments are mine; we have mmon interest, the glory and prosperity of our whole country. The national sentiments, embodied in the resolutions adopted by the Convention, meet my hearty concurrence.

The voters of the 17th, distinguished as they are for intelligence and patriotism, will not, I am confident, fail to do their duty in the approaching contest, and whatever may be the result, let our motto still be *Truth*, and our aim the good of our country.

Joshua Bird of Bethlem, the nominee of the Republicans in the 16th district, is worthy of the zealous support of the Freemen of that District .-Geo. C. Hitchcock of Washington, is the democratic candidate. He is a clever fellow and good looking, but, we trust, "can't come in."

Mr. Saltonstall had a very full house on Monday evening, and gave a Lecture on the prophecies, which he claimed would all bear a literal interpretation. The first two verses in the 18th chapter of Isaiah, he interpreted as relating to the United States—the "shadowing with wings" referring to our national emblem, the spread Eagle. The land "beyond the rivers of Ethiopia," he gave very plausible reasens for supposing was this then undiscovered country—a direct line from Jerusalem, where the prophet was, pointing to the central portions of our confeddates more at the last session of Congress, as the tion. So hardly pushed are the democracy for some-thing to talk about that they have dug up a school law which was passed in 1841, and made that an is-sue. Since that time they have had control of six Legislatures, and never thought of repealing it!

MR. EDITOR,-In our out-of-the-way Village, we occasionally have a little excitement which we enjoy; and how and then an item too good to be kept to ourselves. One of this character I propose to give you will give me the space necessary. In the good MING, April 2d, at 7 o'clock. town of Washington, near the west branch of the Shepaug, we have two "trappers." One of them has been pretty successful in trapping, and the other in stealing furs from his more successful competitor, till trapper No. 1, thinking this was not exactly fair. went to one of our worthy magistrates, and asked for "legal suasion" to make trapper No. 2 catch his own "skunks" and "skin" them too, and not steal from his neighbor; or, in other words, proposed to prosecute No. 2 for the theft.

After a long pow-wow, 'Squire Jo. made out complaint for the complainant, and sent him to Mr. B. a grand juror, to have him sign it, but a messenger was secretly despatched to Mr. B. with directions to withhold his signature till after the first Monday of April. No. 1, on arriving at Mr. B.'s residence can in the Senate and House opposed it. and presenting his legal document was politely informed by his honor the grand juror, that he could not sign his complaint. No. 1 then started "bockagain," called on 'Squire Jo. reported progress, and then away for the signature of another officer, but he too had been 'notified' and refused to sign. 'Squire Jo. then took the matter in hand, and plainly told No. 1 that he must wait 'till after 'lection; that if he convicted No. 2 he would spoil a democratic vote; that after the 1st Mon-its readiness to sell out the important public offices day he might "go ahead" and put him through and of the State for a pecuniary consideration. In Rhode lose my vote, or prosecute the scamp forthwith, for I will not vote the democratic ticket if you do not. So you see, Mr. Editor, the democracy of New-Preston are in a quandary—it is "to be or not to be" and that's the question-an honest man versus a thief--"skunk skins" versus democratic votes. Oh thunder, how it smells.

The Union says that the election of Messrs. Arnold & Bishop would "show that the great principles of the Democratic party yet retain their ascendancy in the hearts of the people." Now, since the Union has published these gentlemen before the world as true disciples of the Democratic faith the people of Connecticut are interested to know what world as true disciples of the Democratic faith, the these "great principles of the Democratic party" are. We quote from an article in the Washington Union of November 17, 1857, a couple of para graphs in which two of these "principles" are distinctly set forth. The first is this:

"All State Laws which prohibit a citizen of one SLAVE PROPERTY WITH HIM, and most especially those declaring it forfeited, are direct violations of of the Constitution of the United States."

Here is advanced, distinctly and plainly, the monstrous doctrine that the people of the Free States have no right to "regulate their domestic institutions" to suit themselves! Any slaveholder has a right to nullify any and all laws of any sovereign State in the Union, prohibiting the holding of Slaves within its borders! Slavery is carried into all the States and Territories of the country, and protected there by the Constitution! The corollary doctrine to this, that the people have NO RIGHT TO MAKE ANY FREE STATES is also laid down with unmistakeable distinctness in this paragraph from the same article:

We have never doubted that the emancipation of Slaves in those States where it previously existed, by an arbitrary act of the Legislature was a GROSS VIOLATION OF THE RIGHTS OF PROPERTY."

It is a "direct violation of the Constitution" to these Slavery out of any State of this Union—and a "ignose violation of the rights of property" to HAUS any Free States at all!

This is the Democracy of the Washington Union, the official organ of the National Administration.

These are some of those "great principles of the Democratic party" to which the same paper declares. Democratic party?' to which the same paper of that Arnold and Bishop ar "firmly devoted?"

> From the Hartford Press. THEY TRY TO RAISE THE POSTAGE.—Every person, when mailing a letter should remember that but for the Republicans in Congress, he would pay an addi-tional tax of seventy per cent. imposed by the ad-ministration. The effort to impose this additional tax will be repeated at the next session, and every vote given for the administration ticket will be counted as strengthening the administration policy It is true that the administration managers at Mid dletown, knowing this additional tax to be odiou and unpopular here, have declared themselves op-posed to this measure of the administration, yet every vote given for their ticket will be considered as sustaining the party and its measures. therefore, votes for their ticket, will indirectly and incidentally, at least, vote to increase the postage tax, which twice passed the Senate, where the administration has the ascendancy. THE FINGER OF WALL STREET .- Public sentiment being so decided and emphatic against the Administration, the managers and candidates are resorting to the use of money. They will expend a larger amount in this election than ever before. It was to provide themselves with additional means, that they nominated a wealthy Wall street broker for Lieutenant Governor. For years Wall street endeavored to intrude itself into our legislature and by its lobby agents control the General Assembly. It now takes a bolder step, and has bought up the state conven-tion of the sham democracy. That party has shown they would all help him. That's the game, is it? Island and New Jersey Wall street has sometimes made itself felt, and for a period it got absolute consays No. 1. Well, I can tell you you must either trol of the former State; but hitherto it has obtained no foothoold with either party in this.

What public service has Richard H. Winslow ever

endered to the State of Connecticut? What does he know of our laws and institutions, and in what nauner is he identified with them, that he should have been selected as the candidate of any party to preside over the Senate? Has he ever, in any way or manner, distinguished himself or been known in this State, except as a money broker and dealer in stocks and bonds, by which the people have been plundered of millions of capital? Having acquired nmense wealth in his Wall street operations, few years since, bought a country seat somewhere in the southwestern part of this State, and now, with the same wealth he wishes to purchase official dignity and notoriety, and there are managers of the sham democracy ready to sell offices for money. There is, and can be no more telling evidence of its weakness and degeneracy, than this vile prostitu-

In what town is Mr. Winslow known? Who of the delegates that nominated him ever saw or heard of the man until he was brought forward, with the express understanding that he was rich, doing business in Wall street, wanted office and would "do his part" with his means if nominated? Not merit or service, but money, MONEY, secured that nomina-tion! It is selling out the responsible positions of the State to Wall street, so far as the party which nade him a candidate can do it, and those who may vote for him will do it without any knowledge of do business' where are his interests, and where he passes four fifths of his time.

The Hartford Times, enraged at the rapidly accuulating prospects of its party's annihilation on the first Monday of April, howls disgustingly about "amalgamation," the last resort of blackguards who fail to prove that negro hunting is honorable business. The virtuous times is troubled because seventy-two whites married seventy-two blacks in Massachusetts last year. It has a less horror of illegitimate connections, and much prefers the system of the "democratic" slave states, where over three millions of men and women, made by the same God, who, for some inscrutable reason, created the Times man also live in a state of enforced concubinage, where the female slave is wholly at fully multiplying mulattoes and quadroons show that the Times' kind of morality is widely preva-

Nothing looks so improbable to those who have n vain tried all the wonderful medicines of the day as that a common weed, growing in the pasturesand along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs and ands, hums and has about its suiting some cases but not yours. I peddied over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the great est cures ever done in Massachusetts. I give it to children a year old; to old people of sixty. I have some poor, puny, wormy-looking children, whose flesh was soft and flabby, restored to perfect health by one bottle.

To those who are subject to the sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness.
